

### ENVIRONMENTALLY FRIENDLY

**Siding with Perfection**

Perfection? It's never too much to ask. Our Colour Clear Through® system makes it easy to find the perfect colour match for your exterior design. This exclusive selection of customer-preferred colours ensures that all Gentek products – siding, soffit, fascia, trim and rainware – will beautifully match throughout our vinyl, aluminum and steel product lines.

**EASY LIVING**

Handsomely detailed and value-priced, Driftwood II vinyl siding brings classic style to the forefront. The natural cedargrain texture and low-gloss finish of this quality-crafted exterior will impart casual elegance to any home.

**Enduring Style**

Driftwood II's lasting beauty and simple upkeep make it a popular choice for today's homes. Durable and dent-resistant, each panel is solid vinyl colour through and through, so it won't chip, flake and blister like painted surfaces. And unlike wood, it won't rot and warp due to moisture.

Even better is the fact that vinyl siding never needs to be painted. There's no need for dangerous ladders or time-consuming maintenance. Just an occasional rinse with your garden hose will remove most airborne dust and dirt, and restore the siding's like-new appearance.

**Added Strength**

Built weather-tough! Driftwood II is fortified with a rolled nail hem for extra-strong wall attachment. In independent laboratory tests, Driftwood II withstood windloads up to 283 km/h (176 mph).\*

**Investing in Today and Tomorrow**

Having a beautiful home can be a wonderful source of pleasure and pride. It also can be a wise investment. Driftwood II vinyl siding not only will create an enjoyable, worry-free exterior, it will heighten your home's curb appeal as well. And in today's resale market, a beautiful, low-maintenance finish can greatly enhance the value of your home.
